## CONFERENCE COURSE

# "INDIRECT ANTERIOR BONDED RESTORATIONS - CURRENT TRENDS"

Date  
**28th August 2025**  
Time  
**10.00 am to 4.00 pm**

**Course Type : Advanced**

**Limited Seats**

### **Dr. Carlos de Carvalho** DDS, MS, PHD

This course is an intensive lecture program designed for practitioners looking to refine and update their skills in anterior bonded restorations using indirect porcelain veneers. When properly indicated, bonded ceramics represent the gold standard for biologic, functional, mechanical, and aesthetic restoration of compromised anterior teeth. By integrating the latest advancements in adhesive dentistry with minimally invasive techniques, this program will provide participants with the knowledge and confidence to achieve long-lasting, high-quality results in their clinical practice.

#### **Objectives:**

- Explore the latest scientific advancements in adhesion. Review ultraconservative approaches to treatment.
- Master essential procedures to enhance the success of indirect restorations.
- Understand the key factors for successful indirect ceramic restorations, including wax-up, mock-up, preparation, and delivery.
